ESTIMATED TOTAL CHARGES \$

IMPORTANT NOTICE

The actual charges which will be collected generally cannot be determined until after the property is loaded on a van and weighed. The estimate covers only the articles and services indicated. If additional articles are to be shipped or additional services required a supplemental estimate may be obtained.

The estimate of the charges herein made is not a warranty or guaranty that the actual charges will not exceed the amount estimated. Carriers are required by law to collect transportation, packing, and other incidental charges computed on rates shown in their lawfully published tariffs regardless of any rate quotation or weight estimate made by the carrier.

*This form may be used by shippers in making own estimates of weight of goods to be shipped. The Table of Measurements on the reverse side hereof indicates the cubical measurement of average pieces of furniture and other household articles of various types. To determine the estimated weight of any article multiply the cubical measurement of such article by seven pounds, the average weight per cubic foot of household articles.
